CLASSIFICAZIONE DEGLI ORGANISMI VIVENTI

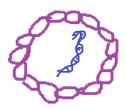

Procarioti - Eucarioti - Virus

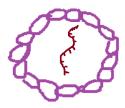

VIRUS

Organismi subcellulari (Inferiori alle cellule – non sono formati da cellule)

Molecole di acido nucleico DNA RNA

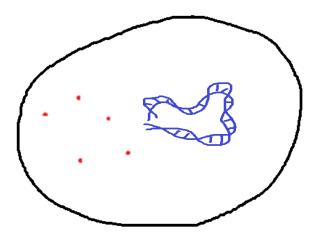

Non possiedono alcun tipo di metabolismo (insieme delle reazioni chimiche che avvengono nelle cellule)

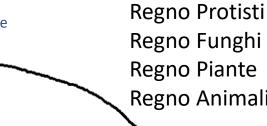

Assenza della membrana nucleare

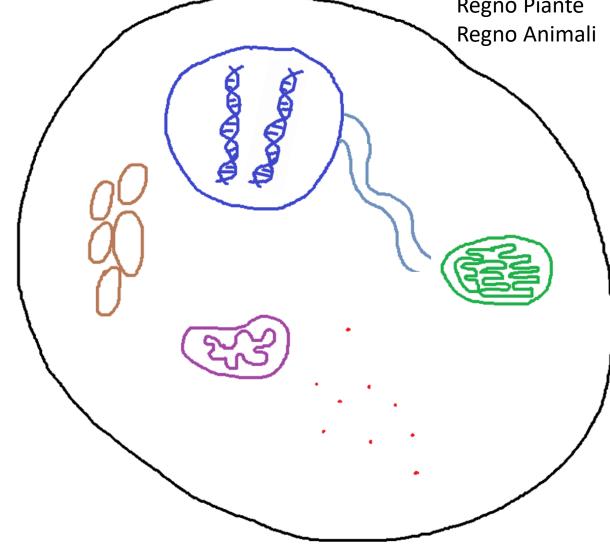

ORGANISMI PROCARIOTI Batteri

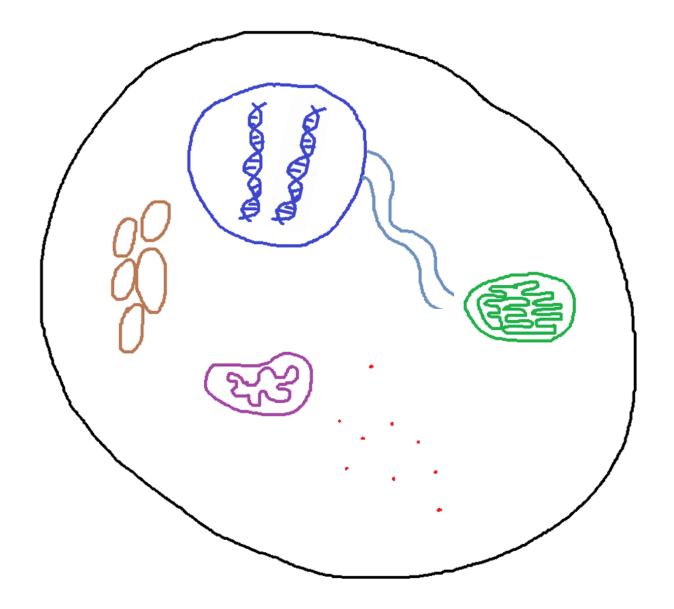

CELLULA <u>EUCARIO</u>TE ORGANISMI EUCARIOTI

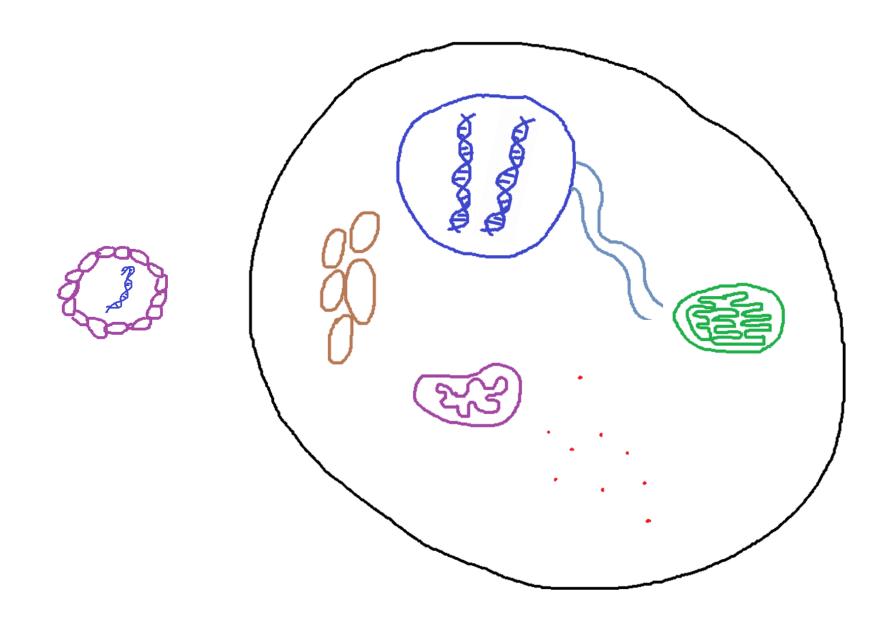

Presenza della membrana nucleare

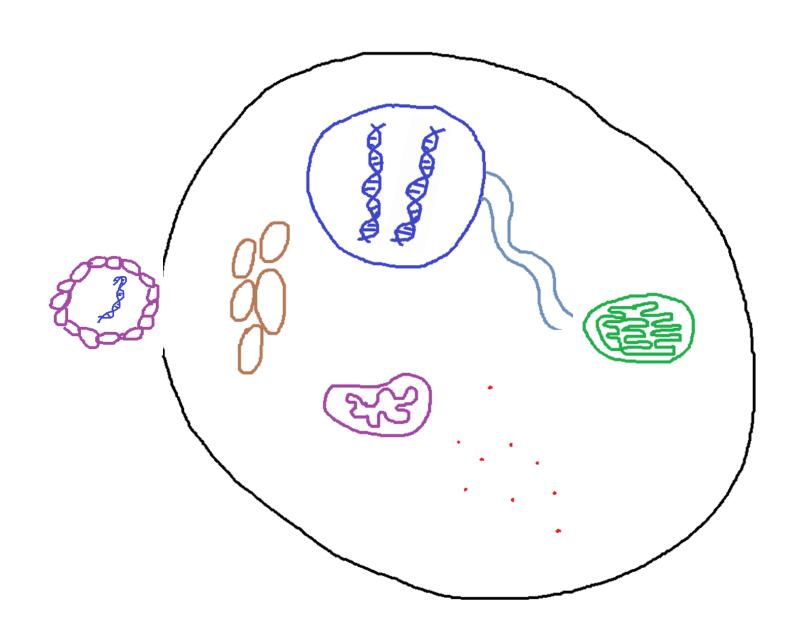

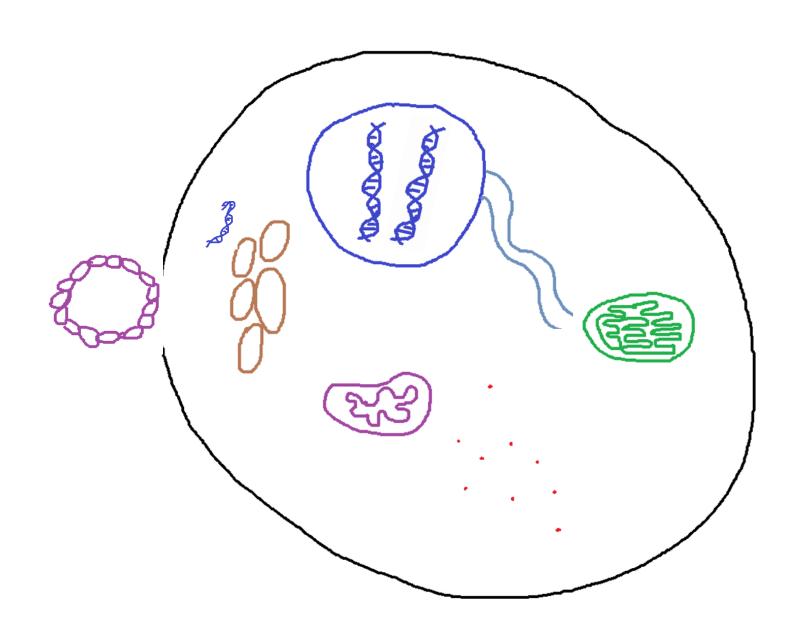

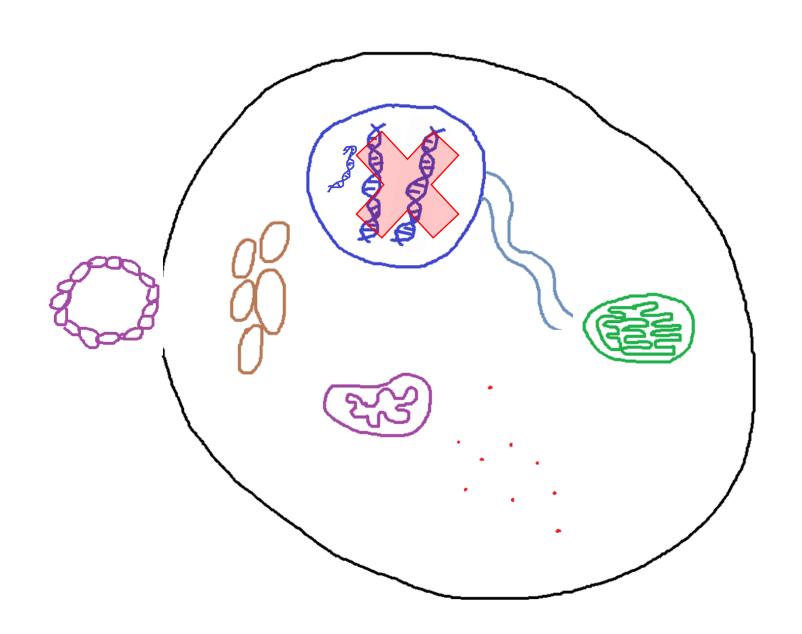

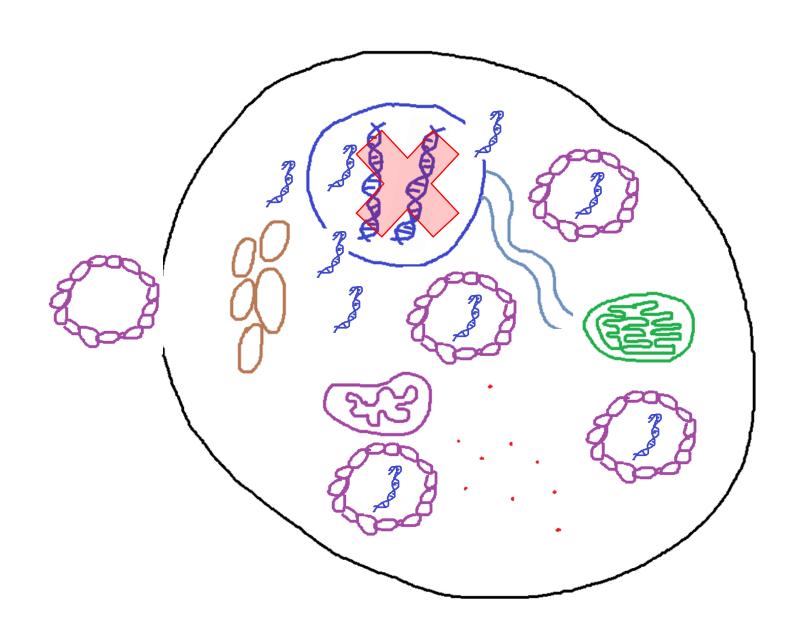

RIPRODUZIONE DEI BATTERI SCISSIONE CELLULARE O SCISSIONE BINARIA
